Izmir Turkey

Microservice Architecture, Backend Web Development, Object Oriented Design, Agile Methodologies, API Development, .NET Core, Unit Testing, TypeScript, JavaScript, Node.js, SQL, Python, Azure, AWS, Git

Backend engineer with 10+ years of experience building .NET microservices and event-driven systems in travel-tech, e-commerce and enterprise. Includes 3+ years as Backend Team Lead. Comfortable owning a project end to end: from turning requirements into a plan, to shipping, to fixing it in production — and helping the team grow along the way.

EXPERIENCE

Senior Software Engineer (2+ yrs as Backend Team Lead), C Teleport Aug 2023 - Ongoing, Remote

Travel management platform for business travel

- Lead the technical development and execution of the team's projects and acted as the technical point of contact for the team and stakeholders
- Break down business requirements into technical tasks and implementation plans; drive planning, prioritization and delivery
- Identify and resolve technical risks, bottlenecks and system issues, ensuring deliverables are on time and meet quality expectations
- Hands-on contributor for complex features and critical production issues
- Enhance, maintain and document microservices according to functional and non-functional requirements
- .NET Core, PostgreSQL, MongoDB, RabbitMQ, Redis

Senior Software Engineer (1+ yr as Backend Team Lead), ÇiçekSepeti Dec 2020 - Apr 2023, Remote

High-traffic floral and gifting e-commerce in Turkey, Spain, Mexico and Colombia

- Designed and built scalable microservices for systems serving millions of users
- Mentored and guided a mixed team of technical and non-technical members
- Worked with business analysts on requirements; created and documented the microservice inventory
- .NET Core, TypeScript, NodeJS, Python, RabbitMQ, Redis, MySQL, MSSQL, AWS S3, AWS Lambda

Software Engineer, Emakina Nov 2016 - Oct 2020, Izmir, Turkey

International digital agency

- Built and maintained CMS-based websites (Sitecore, Sitefinity) with multinational agile teams
- Clients included Sunweb, Kodak Alaris, Philip Morris International and Nationale Loterij
- .NET MVC, Javascript, Sitecore, Sitefinity, Azure, MsSQL

Software Engineer & Data Security Consultant, Komtaş Jul 2015 - Oct 2016, Istanbul, Turkey

Data and analytics consultancy

- Built scripts and plugins integrating client environments with Informatica data platforms, on site at Turkcell and Kuveyt Türk
- Supported pre-sales technical work for Vodafone and Garanti BBVA.
- Java, Informatica DDM, Informatica PowerCenter, Informatica DQ, Oracle, MSSQL, Teradata

EDUCATION

- BSc, Computer Engineering — İzmir Institute of Technology Oct 2010 - June 2015, Izmir, Turkey
